

What is NuVet?

NuVet Labs® has spent several years to create a product designed to attack the causes of disease instead of just covering up the symptoms. To do this we put together a team of top scientific, medical and pet industry professionals that shared our desire to find real solutions to an ever growing pet health dilemma.

NuVet® products are made in a FDA approved laboratory with natural, human grade ingredients specially compounded to deliver the most effective nutritional health benefits. Utilizing the latest advances in medical and nutritional science, we apply state of the art manufacturing technologies to help us maintain a standard of product quality and integrity that is virtually unheard of in the pet industry.

NuVet's® pledge to the millions of pets and their human families, to forever produce the most powerful nutritional supplement that can help make pets healthy and keep them that way.

NuVet

As a dog breeder, animal health is my top priority. That's why I enthusiastically recommend NuVet immune system builder to all of my customers. Simply put, it is the best nutritional supplement available today. We will guarantee puppies for two years if NuVet Plus is given daily at the recommended dosage. We also recommend them to be given for the lifetime of the puppy. When you get your new puppy, a starter supply will be provided. NuVet corresponds with us on orders of the product for our guarantee.

Hundreds of thousands of dogs and cats are using NuVet to protect against most ailments (from back yard pesticides, pet food allergies and hormones, toxic formaldehyde in furniture and carpeting, ailments transmitted from dog parks and the vet's office, etc), while maintaining a beautiful skin and coat.

This is not just a vitamin. It's an immune system builder with a precise balance of vitamins, minerals, omega fatty acids, amino acids and high-potency antioxidants. That's why it works so well through all three stages of a dog's life.

- ✓ For puppies - It fills the immunity gap all puppies experience. Shortly after birth maternal antibody effectiveness is greatly reduced. By 8 weeks your puppy's immune system is at a vulnerable point. Once in their new home, the immune system is weakened by the stress of adoption and exposure to novel bacteria and viruses in their environment. This is also when the vaccine series is started. Vaccines are only effective if the immune system can respond properly. Starting NuVet Plus now is important to helping your puppy grow into a healthy adult.
- ✓ For dogs in their prime - it improves the luster of their skin and coat while protecting against allergies, skin and coat problems, staining from tears, digestive problems, etc.
- ✓ For older dogs - it helps protect against, tumors, premature aging, cataracts, heart conditions, diabetes and many types of cancer, while extending the life and improving the vitality of many dogs.

I highly recommend NuVet Plus to keep your pet on the path to perfect health! It's not available in stores, and is only available to the general public with an order code from an authorized pet professional.

For your convenience, you may order directly from the manufacturer by calling 800-474-7044 and using Order Code: 14080, or ordering online at www.nuvet.com/1480. You can also save an additional 15% and assure you never run out of NuVet by choosing the "AutoShip" option at check out.

To the long life and health of your dog!
